

Spring/Summer 2024 Introductions

Arc

WEAVE INTRODUCTION – TABLETOP

A gradation of weaves creates the soft-edged shapes of Arc. Rows of layered crescents intersect and align to form a dynamic pattern of connected curves and rich texture. When flipped over, a different color comes to the fore, offering two distinct looks in each placemat.

Custom sizes available. Suitable for indoor and outdoor use. Made in the USA with TerraStrand® and Microban®. Free of phthalates.

Sizes:

Botanic

WEAVE INTRODUCTION – TABLETOP

Botanic is a fresh perspective on floral motifs, featuring a deconstructed bouquet brought to life on the loom. The thoughtful application of color adds dimension to this versatile and lively weave.

Having previously explored florals through printed and molded textiles, the Chilewich design team set out to push the boundaries of weaving—and creativity. Botanic was developed through a playful and iterative process that began with a trip to New York's Flower District. Back at the studio, a variety of stems were arranged on paper. These compositions were then covered in a coat of spray paint. When the flowers were lifted away from the painted paper, their silhouettes remained.

The works on paper were photographed and then the compositions were collaged digitally. Finally, the image was translated into a woven jacquard, its playful blooms enlivened through unexpected color.

Custom sizes available. Suitable for indoor and outdoor use. Made in the USA with TerraStrand® and Microban®. Free of phthalates.

Pepper

WEAVE INTRODUCTION – TABLETOP

Inspired by marled knitwear, Pepper is an especially textural weave that incorporates multiple hues. It was developed through an iterative process in Chilewich's New York design studio, where a series of handlooms ultimately yielded a harmonious balance of subtle pattern, versatile color combinations, and a uniquely tactile quality. When flipped over, the flecks are elongated into broken stripes, offering two distinct looks in each placemat.

Custom sizes available. Suitable for indoor and outdoor use. Made in the USA with TerraStrand® and Microban®. Free of phthalates.

Warp

WEAVE INTRODUCTION – TABLETOP

The geometry, symmetry, and contrast of a checkboard pattern is playfully softened in Warp. Squares break free of the grid, stretching and bending to form rows of undulating organic lines in natural tones. The Chilewich design team developed this weave to have an especially large scale, ensuring that each placemat is unique.

Custom sizes available. Suitable for indoor and outdoor use. Made in the USA with TerraStrand® and Microban®. Free of phthalates.
