# About ROLL'EAT

## Our products combine

**Sustainability / Functionality / Innovation**  
**Originality / Design**

At Roll'eat we design creative and reusable food wraps. Our key objective is to raise awareness to help protect the environment, reducing waste generated by plastic bags, tin foil and other polluting materials.

Our mission is to provide alternative products and abolish the need to use disposable wrappers that create waste after just a single use. This is why Roll'eat innovates.

What really makes us different is not the products we offer, but the reasons why our products exist – to protect the planet!
